What's your style?

Maybe you know exactly what
you want. Or maybe you're
looking for some inspiration.

Either way, we'll help you find it.
Just browse this book for ideas.
Then visit our online door builder
to create the perfect door for
your project. Your Advisar
contractor will place your order
and install your door, in a fraction
of the time of traditional suppliers.

Easy. Fast. Simple.

Because whatever your style,
complicated isn't part of it.

Door System

Style inspiration

MODERN FARMHOUSE RELAXED RUSTIC

Subtle, natural and inviting,
this style blends rural heritage
with modern simplicity.

Create an atmosphere where modern rural touches breathe fresh life into any space with clean lines and a subtle, inviting color palette. Light, natural colors and wood grains perfectly complement inviting glass panes, allowing soft, natural light to brighten and connect this relaxed pastoral style with contemporary flair.

2

COLOR INSPIRATION

Soften the starkness of an otherwise modern palette with warm rich browns and playful pops of eye-catching color, such as grassy green and smoke blue.

THE HAPPY MEDIUM.

3

Exterior

Style inspiration

MODERN FARMHOUSE BOLD SIDE

Old-school charm that puts a stylistic stake in the ground.

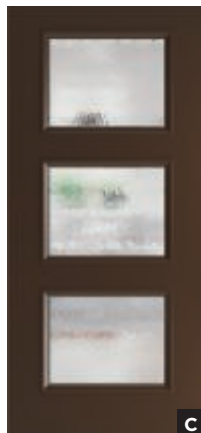

Comfortable but not cluttered, Modern Farmhouse brings a sense of the steadfast and familiar to balance the influence of all things digital and disposable. Apron sinks and weatherworn shiplap mingle with modern elements to create a reassuring sense of history and heritage. Natural textures and large openings create a sense of connection with the outside.

COLOR INSPIRATION

Back to fundamentals. The striking impact of a clean basic white and bold, uncomplicated black is as simple as it gets. Neutral grey's add just the right amount of balance.

Exterior

COZY.
FAMILIAR.
TRENDY.

CLASSIC

Built on tried and true design elements over centuries, it's the style that never goes out of style.

Generous porches, plantation shutters and wrought iron railings give a noble air to the Classic style. Ornate cornices, stately columns and graceful arches combine to create a museum-like tone with a decidedly proper bearing. Pair classic elements with modern counterparts for a look that's timeless, not stodgy.

MODERN

Simple but never boring,
choose Modern to lighten
and brighten any space.

Serene and minimalist, Modern style prefers bold geometric shapes and clean lines, accented with contrasting pops of color. Freshen and energize a tired space with smooth, shiny surfaces, swaths of color and open views to create a light, airy feeling.

COLOR INSPIRATION

Keep it clean with rich espresso black and crisp white. Add softness and dimension with subtle variations like dove gray, or make a statement with a vibrant burst of bright green.

COASTAL CHIC

Fresh and splashy,
with a natural ease
that's always carefree,
never careless.

Door Style: Full Lite
Color: Oxygen
Glass: Clear
Hardware: Ares Handle Set with Poseidon Lever in Bright Chrome

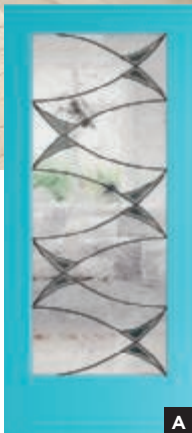

Easy, breezy and relaxed, Coastal Chic always looks great without trying too hard. The trick is simple lines, natural colors punctuated here and there with dark or bold accents that make a statement. Together, it's an understated vibe that goes with the flow.

COLOR INSPIRATION

Counter a warm climate and evoke a sense of all things light and airy with an oasis of cool, clear blue, bright white and crisp apple green.

in Oil Rubbed Bronze

INDUSTRIAL

Inventive and bold,
it's a style that feels real,
unscripted and rich in experience.

Inspired by reclaimed spaces and materials, Industrial style highlights what's often hidden. Distressed, raw or structural elements are made visible and even celebrated. Neutral in color, but rich in texture, concrete, copper, steel and glass surfaces come together to create an edgy, urban feel.

21

Full Lite in Obsidian with Naples Glass

COLOR INSPIRATION

A colorscape of cement, stone, iron and distressed wood has a sophisticated restraint that allows light, texture and form to take center stage.

The Advisar Door System

GET TO KNOW YOUR DOOR.

A Gorgeous Entryway Made Just for You.

Feeling inspired? Great! Now it's time to find out what makes up an Advisar door. But first, we'll give you the lowdown on how easy it is to select your perfect door.

Your doors make the first impression. They have a huge impact on your home's exterior and interior design. So why would you settle for boring and uninspiring when you can have beautiful and customized entryways — statement doors created just for you.

At Advisar, we offer complete, high-performance door systems crafted with important details that separate our products from the other guys. We don't settle for standard. When you rely on us, you can rest assured knowing that you'll receive the highest-quality doors complete with precision finishes, top-of-the-line hardware and essential security features.

Discover the Advisar difference today.

The Advisar Door System

DETAILS MAKE THE DIFFERENCE

Not all doors are created equal. Some manufacturers substitute lower-quality components to save a few bucks. But at Advisar, we don't accept mediocre. We assessed all available product options and selected the absolute best for your door system.

HIGH-PERFORMANCE DOOR SYSTEM

Engineered, weather-resistant construction

We deliver complete door systems. Every door is prehung in a high-performance frame that's engineered with advanced composite materials that, unlike pine, resist damage from rot and weather. Plus, our engineered sills block out air and water. Believe it or not, many others don't. As a result, you get a door with greater strength and less maintenance than traditional wood.

SQUARE EDGE VS. PROUD EDGE

Crafted to evoke the look of real wood

Other door manufacturers may build their products with a protruding proud edge and right away, you can tell it's not a real wood door. We don't do that. All of our doors are manufactured with smooth, square edges to evoke the look of real, solid wood.

PERFECTION DOWN TO THE SMALLEST FEATURE

Coordinated weather stripping colors that match, not clash

We put care and attention into every part of your door, ensuring that you're getting a masterfully designed entry way. For example, we let you pick your weather stripping color. Others might pick white as the standard, but with a black door, that just won't cut it.

SECURITY COMES STANDARD

Upgraded security at no extra charge

Our doors feature a strong security plate that comes standard. Other door manufacturers sell this for an extra cost.

PINE

COMPOSITE

PROUD EDGE

SQUARE EDGE

A close-up photograph of a dark-stained wooden door. A black, modern-style door handle is mounted on the left side of the door. The handle consists of a rectangular base plate and a round knob. Two screws are visible on the base plate. A red rectangular label is positioned below the handle. The door's wood grain is clearly visible, showing a vertical pattern. The lighting is soft, highlighting the texture of the wood and the smooth finish of the handle.

Advisar Paints & Stains

UNMATCHED CONSISTENCY AND PRECISION

Make an impact the moment someone steps up to your entryway with exceptional aesthetic details that you simply won't find on stock doors. Our factory finishing techniques ensure a smooth, consistent look — every order, every time. Painting doors on the jobsite can lead to errors or damage. We avoid these issues by taking care of the finishing process so your contractor can focus on installing your new door.

Amelia Shores stain ●.....

AUTHENTIC WOODGRAIN TEXTURE

It's something you see, not feel

We apply all of our stains by hand to give an authentic wood appearance that's smooth to the touch like real wood. Other door manufacturers think a textured surface is acceptable, but when you look at real wood, you don't feel a woodgrain texture, you see it.

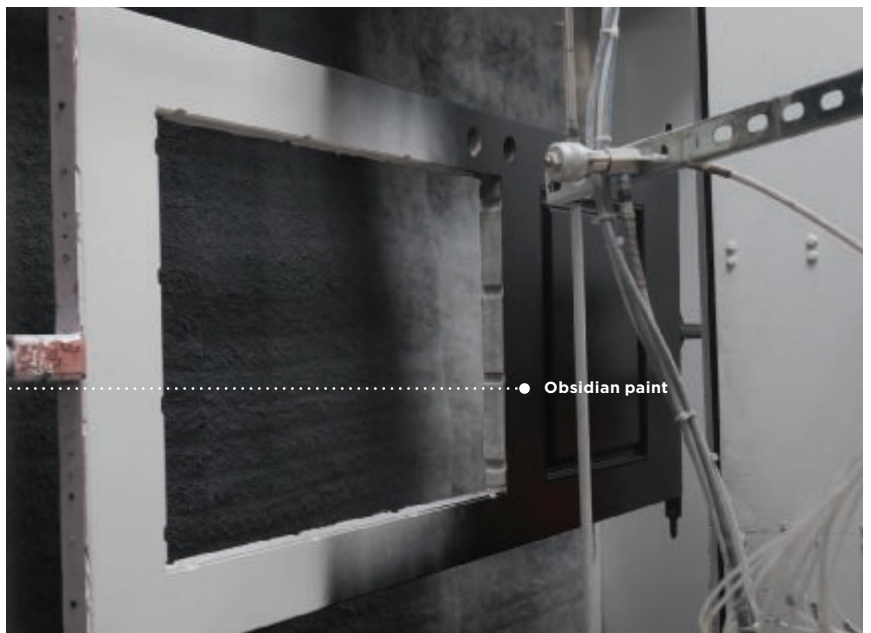

FACTORY-FINISHED PAINT & STAIN COLOR OPTIONS

Expertly applied for the highest aesthetics

All of our doors arrive factory-finished in your choice of popular paint or stain color under factory-controlled conditions. Our state-of-the-art equipment, expert finishing techniques and baked-in seal help provide excellent consistency and durability, every time.

Ask your Advisar contractor about our paint and stain color cards. True stained wood grains help you better envision your beautiful new door system.

● Obsidian paint

We've eliminated
unsightly plugs!

Advisar Glass & Hardware

GET STANDOUT STYLE WITH HIGH- QUALITY OPTIONS

All of our doors are customizable and come with premium options like exclusive glass designs and name brand hardware. Unlike the other guys, we don't take shortcuts. We focus on the important details so you're left with a high-quality, stunning door that you can be proud of.

ENERGY-EFFICIENT GLASS

Premium designs packed with performance

Make a statement with one of our stunning decorative glass designs, which are available in low-e. That has a direct benefit on your home's energy efficiency by reducing heat flow and air leakage.

SEAMLESS GLASS FRAME

Smooth, plug-free design

Our Silhouette™ seamless glass frame adds an extra touch of elegance with its plug-free design that secures the glass internally. Say goodbye to unsightly fasteners or screw holes and hello to uninterrupted beauty. The exclusive frame design artfully conceals the fastening system for a seamless architectural appearance.

FINISHED-TO-MATCH HARDWARE

The look that's just right

Your selected hardware and locksets are beautifully finished to match and preinstalled for superior ease, quality and appearance. Hardware is sourced from leading brands and includes electronic lockset and three-point security locking hardware options.

HIGHLY ENGINEERED PROTECTIVE PACKAGING

Doors delivered damage-free

With traditional door packaging, it's not uncommon for products to arrive damaged. That's unacceptable. So we invested in a new kind of packaging—highly engineered from top to bottom to protect our door systems from damage and you from frustration and delays.

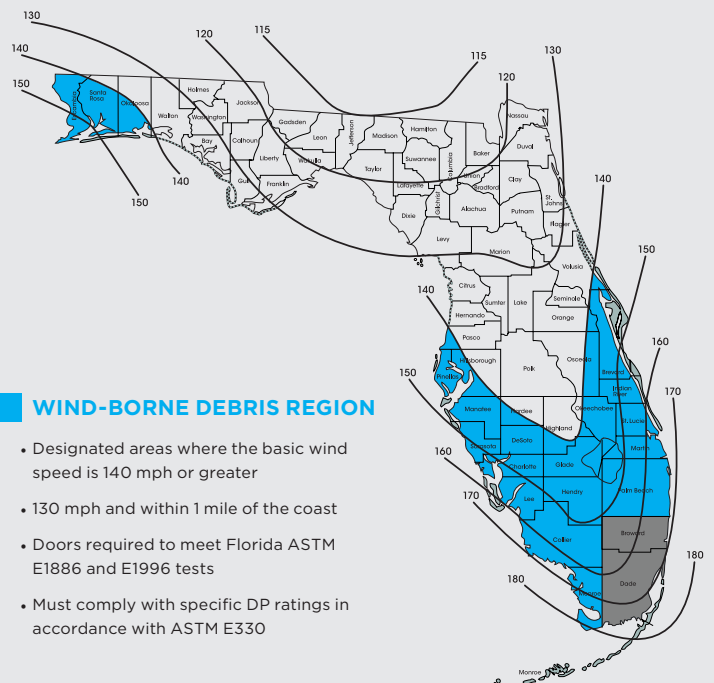

For Your Protection

IMPACT-RATED DOORS AND GLASS

Advisar systems are available with impact-rated doors and glass that meet high-wind and coastal region codes.* Protect your entryway from extreme weather by telling your contractor to include this upgrade.

Hurricane Prone Regions

WIND-BORNE DEBRIS REGION

- Designated areas where the basic wind speed is 140 mph or greater
- 130 mph and within 1 mile of the coast
- Doors required to meet Florida ASTM E1886 and E1996 tests
- Must comply with specific DP ratings in accordance with ASTM E330

* All impact glass has been tested for structural integrity and meets the requirements of Wind-Born Debris testing.

Designed to Order Doors

CUSTOM DOORS MADE EASY

Finally, a straightforward and easy way to buy a door. We changed the process to help you get a completely custom door system, on your schedule. No more waiting weeks. No more wrong orders. Just quality doors without the delay. Visit advisar.com to learn more.

It's your time and money. Rely on Advisar to get a beautiful statement that will last for years to come.
